**Triple P Parent Support Classes for Support Staff & Parents**

Farah Diba has delivered Triple P sessions for both parents and support staff. The feedback from which has been overwhelmingly positive.

She delivered a session for 21 of our support staff. The feedback from every support staff member was very positive. Everyone agreed that the content was well delivered and was interesting, applicable and had enhanced their skills when dealing with young people. Everyone agreed they would recommend the course to other professionals. All participants agreed that Farah was an effective trainer. We are very keen to get Farah in to deliver more sessions for even more staff at a later date.

Farah has also delivered the sessions to a group of our parents with children spread across the age ranges at Lister. They too have been very positive in their feedback and have actively encouraged others to get involved. One parent said, "It's amazing. Even after the first session I had learnt so much".

I am very happy to recommend Farah Diba deliver Triple P sessions at your institution.
